WORK EXPERIENCE

Intern at Blend Vidya

- At Blend Vidya, I applied Python programming principles to develop robust, scalable solutions for online platforms.
- Engaging with various aspects such as data processing, backend functionality, strengthened my ability to translate theoretical knowledge into practical, reliable software solutions.

PROJECTS

Digit Recognition using Neural Network

- An ML project for handwritten digit recognition using a neural network built with TensorFlow and Keras, utilizing the MNIST dataset for training and evaluation.

Python Web Scraper

- A Python project for extracting data from LinkedIn profiles and search results using web scraping techniques with Selenium.

Coding Platforms

HackerRank- @akp28may LeetCode- @Pathak__Ankit

GeeksforGeeks- @akp28s6my

SKILLS

Python | C++ | DSA | ML | DL | Neural Networks | Html | Css | Js | Bootstrap | GitHub | Creative Content Writing | Open Mic - Storytelling | Project Management | Leadership | Adaptability | Problem Solving | Teamwork | Creativity |

POSITION OF RESPONSIBILITIES

Executive HR & Communication at ISET AIC CGU

- I closely collaborated with colleagues and worked at incubator AIC to successfully achieve project objectives.

Lead of Anubhuti Dramatics Club CGU

- Wrote and led multiple Nukkad Natak "Katar lat kii", "Kude Wala", "Choutha-Bandar" to victory.
